

BOOKNOOK TUTORING Math Classroom At a Glance

After logging in, students will enter the **BookNook Math Classroom**. Here you will see the tutor and student video on the right as well as additional controls along the top and right of the whiteboard screen.

The screenshot shows a whiteboard interface with a toolbar at the top containing icons for eraser, pencil, highlighter, shape tools, text, and math symbols. Below the toolbar is a grid with yellow squares and blue checkmarks. On the right, there are video feeds for a 'Tutor' and a 'Student'. A control panel on the far right includes icons for settings, camera, microphone, and chat. Callouts provide detailed instructions for each feature.

Along the top you will see the **tabs** where you will be working with your tutor. *Only tutors can change between tabs.*

Students will be able to use the **whiteboard tools** here to draw, type, draw shapes, and erase if the tutor has enabled it.

Use to **undo** and **redo** actions on the whiteboard.

Students should see their tutor and **video screen** here.

Student **view display** cannot be changed.

Change **mic** and **camera settings**.

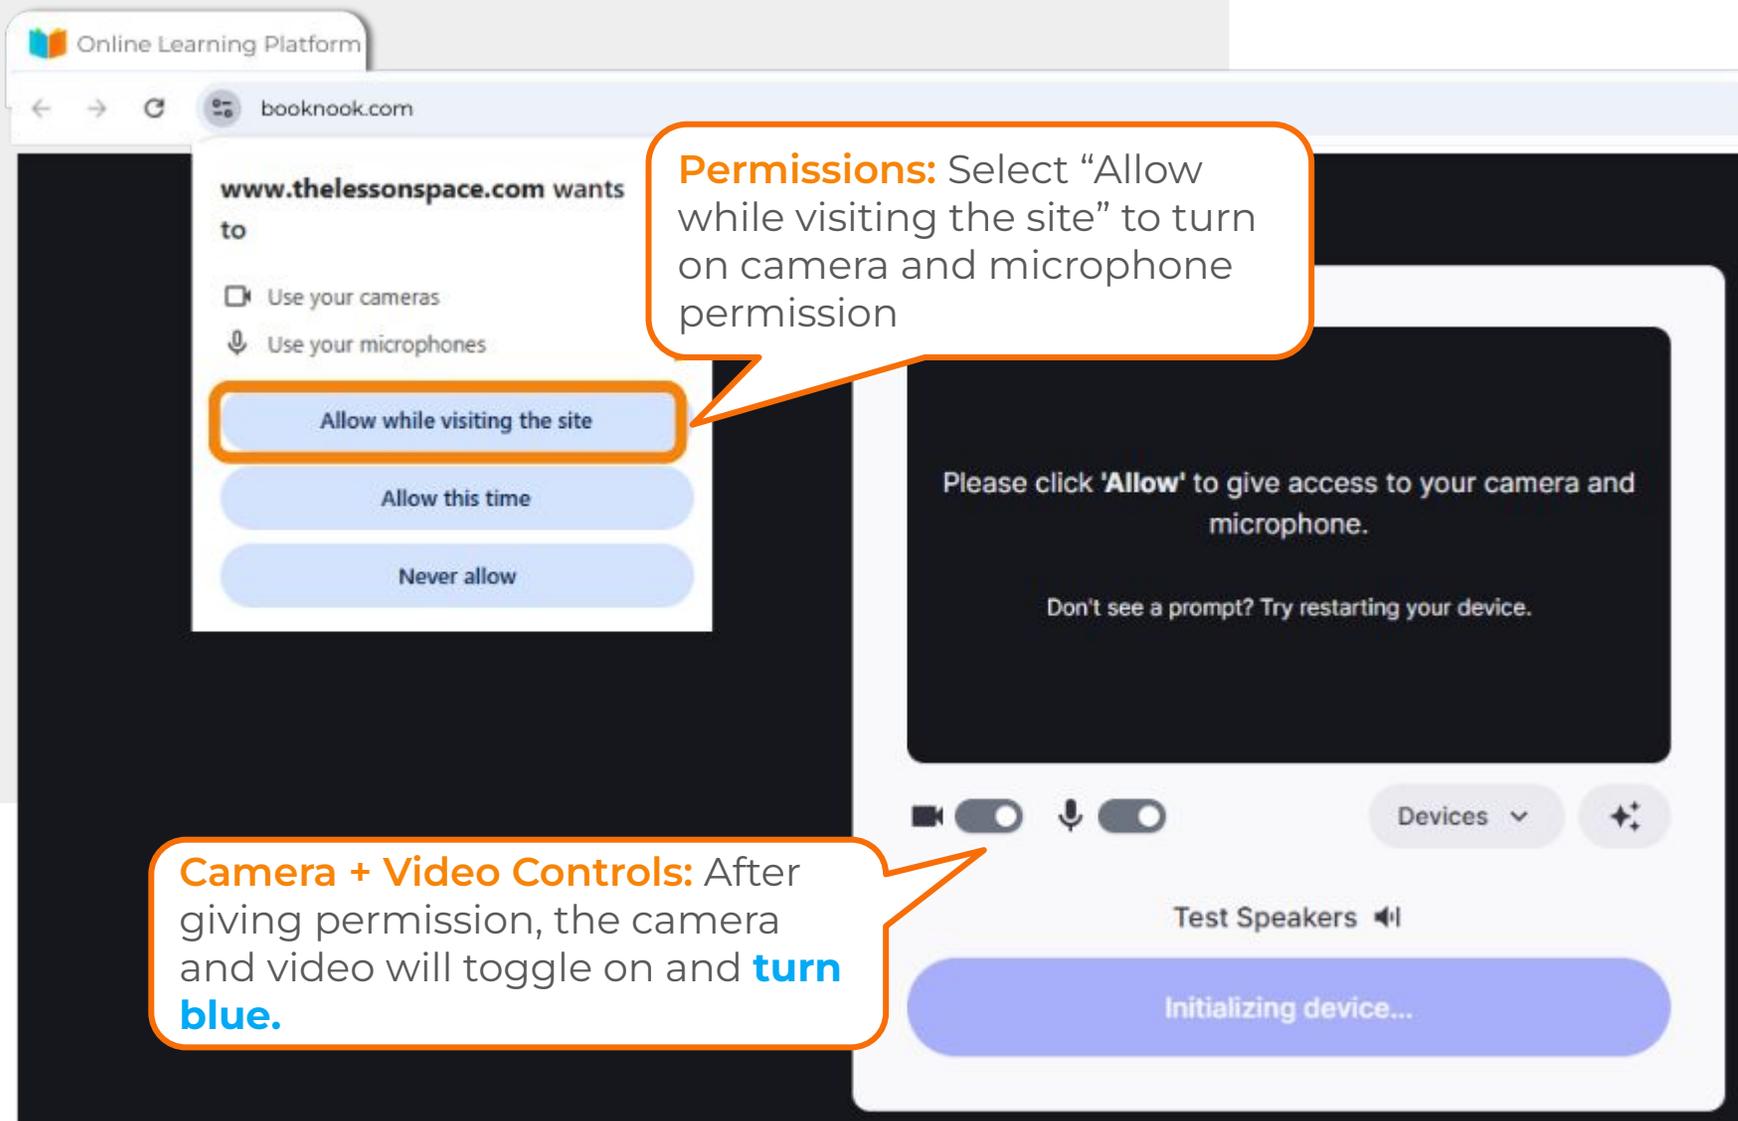

Turn **on/off camera** and **mute/unmute mic**.

Use the text **chat**.

When first joining the Math Classroom, [please be sure students give browser permission to turn on their video & audio.](#) If not using Chrome (our preferred browser) and are using an iPad, take additional steps to toggle "Block Pop Ups" off under Settings > Safari. We recommend [3 points to check](#) before students click join.

Microphone + Audio Setup: After logging in, students may need to give the browser permission to access video and audio - click “Allow while visiting the site” when prompted.

The screenshot shows a browser window with the address bar at booknook.com. A permission prompt from www.thelessonspace.com is displayed, asking for access to the camera and microphone. The 'Allow while visiting the site' button is highlighted with an orange box. An orange callout bubble points to this button with the text: **Permissions:** Select “Allow while visiting the site” to turn on camera and microphone permission.

Below the permission prompt, a device control overlay is visible. It contains a message: "Please click 'Allow' to give access to your camera and microphone. Don't see a prompt? Try restarting your device." At the bottom of the overlay, there are toggle switches for the camera and microphone, both of which are turned on and highlighted in blue. Other controls include a 'Devices' dropdown menu, a 'Test Speakers' button with a speaker icon, and a large blue button that says 'Initializing device...'. An orange callout bubble points to the blue-toggled camera and microphone icons with the text: **Camera + Video Controls:** After giving permission, the camera and video will toggle on and **turn blue.**
